Best/2nd-Best PM Rating

This was an easy handicap and #11 *Bullero* was selected to be the key...

Average Late Speed - Best 3

The general rule is – avoid races in which there are more than 3 First Time Starters. In this field of 12, there were five. However, this was a 6-furlong contest with low PM Ratings, below 4000, which represents a soft field for FTS horses. Most trainers are aware that 5 furlongs is a better first-outing otherwise.

Usually, 6 furlongs is difficult for FTS horses but when the PM Ratings for a race are this low, it is worth a look-see. Here, the gamble was very compelling. The results? A FTS won and the payoffs justified the risk. Not too bad for a few, logical \$1 ticket combinations....
